Gear 3 is consciously strives to help our environment. We're committed to running our company in the most environmentally friendly manner we can. We support renewable energy projects and take steps to lower carbon emissions. Here are some of the things we are doing to lower our impact on the environment.

- Use recycled paper for all office paper needs, although we also make all attempts to keep a paperless office. Sign Up today to have your bills sent via email, just call in and request. Do it today.
- Use solar powered tender to keep our server's UPS batteries at optimal charge.
- Recycle all plastics and paper.
- Recycle computers.
- Give discounts on VPN home office setups- less drivng equals less harmful emissions.and this is just the beginning. Gear 3 is gettting greener each day.
